Bart & Lance

Sorry I can be at the briefing this morning. I have put together a time line and a few talking points on our activities. I'm sure I missed something on the time line. Could you please fill in points I have Missed. There is a large gap from 1996-2009 and I would like to fill that. Please let me know of events that took place during that period so I can develop a time line that is complete.

Please let me know of any other additions or deletions.

Thanks,  
Bill
